

If a Kicking Back removes her helmet to play above the 23 meter line and then needs to return to the circle to defend the goal without having time to put the helmet back on, does she still have kicking privileges (in the circle)?

Answer: Yes, but if a PC or PS is called...she MUST put on the helmet and a chest protector.

If there is a stoppage of play that would allow it, the kicking back shall be permitted to put on the helmet.

She must also have a mouth guard in place at all times
